ABHINAV CHAUHAN

Key Skills

UI Development, ReactJS, Angular Development, SQL, Python, Partner/Relation Management

PROFESSIONAL EXPERIENCE

Angular Development Intern

Jun '24 - Present

Pinnacle Digital Analytics

Current Project: Ministry of Fisheries Website

PMKSSY (Pradhan Mantri Matsya Kisan Samridhi Sah-Yojna), **NFDP (National Fisheries Digital Platform)**

- Developing 2 responsive UI portals for the **Ministry of Fisheries' website** using Angular 18 along with the Founder and the Head Developer
- Spearheaded the development** of the PMMKSSY Portal website to promote the scheme and raise awareness of India's fisheries sector
- Achieved a footfall of **10,000+ users** on the website, raising widespread awareness about the PMMSY scheme and its benefits for the fisheries sector
- Developed **20+** languages functionality, implementing localization to ensure seamless accessibility for individuals and organizations nationwide
- Pioneered a comprehensive registration form in the **National Fisheries Digital Platform (NFDP)** for both individual fisheries and organizations
- Created functionality to **auto-populate user details** by scraping Aadhaar information, leading to a reduction of manual input

Business Development Intern

Jul '23 - Aug '23

TechCurators

Strategic client outreach, forming connections with key decision-makers and converting outreach into meaningful client relationships

- Secured **22** high-value client meetings through strategic LinkedIn outreach, driving revenue growth and honing advanced negotiation skills
- Outlined TechCurators' innovative solutions for **50+** diverse companies, ensuring clear understanding of technical offerings and driving engagement

Projects

Cloud Noting

<https://github.com/Abhinavvvvvvvv/Cloud-Noting>

- Cloud Noting is a secure, web-based platform for effortless note storage and management
- Implementation of secure authentication practices such as password hashing, encryption, and session management to prevent unauthorized access
- The Tech stack includes HTML, CSS, JavaScript, ReactJS, ExpressJS, NodeJS, and MongoDB

News Scrapper

<https://github.com/Abhinavvvvvvvv/News-Scrapper>

- Developed a News Scrapper application using React to allow users to read news across various genres, including sports, general, political, etc
- Integrated News API to dynamically load and display content in real-time, providing users with up-to-date news from multiple sources

EDUCATION

Bachelors in Computer Application

Sep '21 - May '24

Bennett University

Greater Noida

CGPA: 8/10

Summer Fields School

Class 12th, Commerce with Maths: 86%

Class 10th: 8.1/10

CERTIFICATION

Introduction to Web Development with HTML, CSS, JavaScript

Build a Full Stack App using React and Express

Developing Back-End Apps with Node.js and Express
